SOFTWARE ENGINEER

A full stack developer with experience utilizing React and Ruby on Rails to create clean and user friendly code with an emphasis on user experience. As a people leader in the Veterinary field, I learned the importance of creating a collaborative and supportive environment. I consider myself an iron chef in the kitchen, applying both creativity and discipline to create dishes that delight. I hope to transfer and apply these same skills to a rewarding role in the tech field.

TECHNICAL SKILLS

HTML/CSS | Javascript | React | Ruby | Rails | Restful Routes/API | Active Record | Redux | Material UI | Figma

TECHNICAL PROJECTS

Go-Fitness - Github

A fitness app that displays various workouts and the ability to save and log workout routines.
- Utilized React and Material UI for frontend
- Built with a public API and Rails backend allowing authorization and validations.
- Full CRUD capabilities

NetFlat - Github

A user-friendly app to organize a list of movies to watch.
- Built with Rails API backend with React and Tailwind for frontend
- Full CRUD capabilities

Taskmaster - *Server*: Github | *Client*: Github

User friendly app to help you keep track of tasks.
- Built a Sinatra API backend using Active Record + the MVC pattern
- Full CRUD capabilities
- Responsive User Interface using ReactJS frontend with Material UI, and Hooks

EXPERIENCE

Modern Animal	**Los Angeles, CA**
Veterinary Assistant	3/2020 - 5/2022

- Managed a team of five veterinary assistants and coached them on professional development to improve their skills
- Thoroughly examined 20 patients daily in a timely and consistent manner, helping the veterinary practice to reach max capacity of seeing up to 100 patients a day after 30 days of grand opening
- Actively maintained and updated patient charts ensuring accuracy patient data
- Used transparency and collaboration in communication to align expectations and build trust with clients

Broward Veterinary Specialist	**Broward, FL**
Veterinary Technician	6/2016 -3/2020

- Examined patients and assisted and completed surgeries with patient's comfort top of mind
- Organized and prioritized resources to ensure doctor and staff stayed on schedule
- Actively maintained and updated patient charts
- Addressed customer concerns when needed

EDUCATION

Flatiron School (Online)	**2022**

An intensive and immersive software engineering program recognized as one of the top programming boot camps in the country.

Penn Foster (Online)	**2017**
Veterinary Technician Degree
